***Supplement to the***

***"Proceedings of the Indian Academy of Sciences"***

# INDEX TO VOL. LXXI (B)

## AUTHORS' INDEX

| | | |
|---|---|---|
| Agnihotrudu, V. and Padmabhai Luke | | A new species of *Hyalotiella*, 47. |
| Chandra, Subash and Nayar, B. K. | | Some aspects of the morphology of the rhizome of *Pteris wallichiana*, 79. |
| Chaturvedi, Y. | .. | *See* Soota and Chaturvedi. |
| David, S. B. | .. | *See* Narasimhan and others. |
| Dhruva, Bharati | .. | *See* Narasimhan and others. |
| Govindarajalu, E. | .. | Studies in Cyperaceae, III, 221. |
| Gupta, Bal Krishen | .. | Studies in the genus *Cymbopogon* Spreng., III. IV, V, VI, VII, 4, 9, 86, 90, 94. |
| Gupta, J. H. | .. | *See* Sastry and others. |
| Janaki Ammal, E. K. and Usha Zutshi | | Tetraploidy and alkaloid content in *Datura metel* Linn., 1. |
| Jayaraman, R. | .. | *See* Rao and Jayaraman. |
| Kapoor, I. J. and Tandon, R. N. | | *In vitro* synthesis of oligosaccharides by three "Fruit Rot" fungi, 171. |
| Keshore, Hari | .. | *See* Mehra and others. |
| Kulkarni, D. D. | .. | *See* Narasimhan and others. |
| Mascarenhas, A. F. | .. | *See* Narasimhan and others. |
| Mehra, K. L., Rishi, Narayan and Keshore, Hari | | Introgression between *Impatiens racemosa*, *I. laxiflora* and *I. scabrida*, 133. |
| Mody, Jer K. | .. | A new type of adrenal tumour and its comparative histopathology, I, II, III, 150, 157, 164. |
| Naik, V. N. | .. | Some new and noteworthy plants from India, 226. |
| Narasimhamurti, C. C. | .. | *Myxosoma intestinalis* n. sp. (Protozoa, Myxosporidia) from the gut epithelium of the estuarine fish, *Mugil waigensis* Quoy and Gaimard, 19. |

Narasimhan, R. .. Physiological studies on the genus *Sclerotium*, IV, 50.

Narasimhan, R., Dhruva, Bharati, Paranjpe, S V, Kulkarni, D.D., Mascarenhas, A. F. and David, S. B. — Tissue culture of some woody species, 204.

Nayar, B. K. .. *See* Chandra and Nayar.

Padmabhai Luke .. *See* Agnihotrudu and Padmabhai.

Pandotra, V. R. .. *See* Sastry and other .

Panikkar,. Bhaskara M. and Rajan, S. — Observations on the ecology of some sandy beaches of the south-west Coast of India, 247.

Paranjpe, S. V. .. *See* Narasimhan and others.

Ponnappa, K. M. .. Some interesting fungi, IV, 66.

Rajan, S. .. *See* Panikkar and Rajan.

Ranade, D. R. .. The development of the eyes in *Stomoxys calcitrans* Linn. (Diptera—cyclorrhapha—muscidae—stomoxydinae), 145.

Rao, D. Panakala and Jayaraman, R. — On the occurrence of oxygen maxima and minima in the upper 500 meters of the North-western Indian Ocean, 230.

Rao, T. Bhaskar .. An account of the genus *Hexamastix* Alexeieff (1912) from the insects of India, 13.

Rattan, S. S. .. *See* Thind and Rattan.

Rawal, U. M. .. A comparative account of the lingual myology of some birds, 36.

Rishi, Narayan .. *See* Mehra and others.

Sastry, K. S. M., Gupta, J. H., Thakur, R. N. and Pandotra, V. R. — Effect of different concentrations of inoculum of ergot fungus [*Claviceps purpurea* (Fr.) Tul.] in relation to yield of ergot sclerotia, 33.

Sastry, K. S. M., Thakur, R. M., Pandotra, V. R., Singh, K. P. and Gupta, J. H. — Studies on number of inoculations on Rye spikes (*Secale cereale* L.) by needle board puncture method in relation to the yield of ergot sclerotia, 28.

Saxena, N. P. ... Studies in the family Saxifragaceae, VII, 213.

Sharma, H. P. ... *See* Singh and Sharma.

|---|---|
| Silas, E. G. and Srinivasan, M. | Chaetognaths of the Indian Ocean, with a key for their identification, 177. |
| Singh, Bahadur and Sharma H. P. | Control of Bandha [*Dendrophthöe falcata* (L.F.) Ettingsh,] II, 109. |
| Singh, K. P. .. | *See* Sastry and others. |
| Solomon, J. J. .. | *See* Sulochana and Solomon. |
| Soota, T. D. and Chaturvedi, Y. | On five new species of nematodes from vertebrates, 100. |
| Srinivasan, M. .. | *See* Silas and Srinivasan. |
| Sulochana, C. B. and Solomon, J. J. | Local lesion formation in *Cyamopsis tetragonaloba* Taub. with DEMV and other plant viruses, 56. |
| Sumitra Vijayaraghavan .. | Seasonal events in a natural population of *Daphnia carinata* King, 193. |
| Tandon, R. N. .. | *See* Kapoor and Tandon. |
| Thakur, R. N. .. | *See* Sastry and others. |
| Thind, K. S. and Rattan, S. S. | The thelephoraceae of India, III, 118. |
| Usha Zutshi .. | *See* Janaki Ammal and Usha Zntshi. |

## TITLE INDEX

Adrenal tumour, a new type of, and its comparative histopathology, I, II, III (Mody), 150, 157, 164.

Birds, the lingual myology of some, a comparative account of (Rawal), 36.

Chaetognaths of the Indian Ocean, with a key for their identification (Silas and Srinivasan), 177.

[*Claviceps purpurea* (Fr.) Tul.], ergot fungus, effect of different concentrations of inoculum of, in relation to the yield of ergot sclerotia (Sastry and others), 33.

*Cyamopsis tetragonaloba* Taub., local lesion formation in, with DEMV and other plant viruses (Sulochana and Solomon), 56.

*Cymbopogon* Spreng., genus, studies in the, III, IV, V, VI, VII (Gupta), 4, 9, 86, 90, 94.

Cyperaceae, studies in, III (Govindarajalu), 221.

*Daphnia carinata* King, natural population of, seasonal events in a (Sumitra Vijayaraghavan), 193.

*Datura metel* Linn., tetraploidy and alkaloid content in (Janaki Ammal and Usha Zutshi), 1.

[*Dendrophthöe falcata* (L.F.) Ettingsh], Bandha control of, II (Singh and Sharma), 109.

Fungi, some interesting, V (Ponnappa), 66.

*Hexamastix* Alexeieff (1912), genus, from the insects of India, an account of the (Rao), 13.

*Hyalotiella*, a new species of (Agnihothrudu and Padmabhai Luke), 47.

*Impatiens racemosa*, *I. laxiflora* and *I. scabrida*, introgression between (Mehra and others), 133.

*Myxosoma intestinalis* N.Sp. (Protozoa, myxosporidia) from the gut epithelium of the estuarine fish, *Mugil waigensis* Quoy and Gaimard (Narasimha murti), 19.

Nematodes from vertebrates, five new species of (Soota and Chaturvedi), 100.

Oligosaccharides, *in vitro* synthesis of, by three "Fruit Rot" fungi (Kapoor and Tandon), 171.

Oxygen maxima and minima, on the occurrence of, in the upper 500 meters of the North-western Indian Ocean (Rao and Jayaraman), 230.

Plants from India, some new and noteworthy (Naik), 226.

*Pteris wallichiana*, rhizome of, some aspects of the morphology of the (Chandra and Nayar), 79.

Rye spikes (*Secale cereale* L.), studies on nu ber of inoculations on, by needle board puncture method in relation to the yield of ergot sclerotia (Sastry and others), 28.

Sandy beaches of the south-west coast of India, observations on the ecology of some (Panikkar and Rajan), 247.

Saxifragaceae, studies in the family, VII (Saxena), 213.

Sclerotium, genus, physiological studies, IV (Narasimhan), 50

*Stomoxys calcitrans* Linn. (Diptera—cyclorrhapha-Muscidae-Stomoxydinae), the development of the eyes in (Ranade), 145

Thelephoraceae of India, III (Thind and Rattan), 118

Woody species, tissue culture of some (Narasimhan and others), 204
